Disposable

MD Specimen Retrieval System

Experience the future of minimally invasive surgery with our cutting-edge Laparoscopy Auto Retrieval Bag. Designed for seamless retrieval of specimens during laparoscopic procedures, this innovative tool takes surgical precision and efficiency to new heights.

- Red button design realizes one-click disassemble
- Red bead design prevents string falling into the cavity after the one-click disassemble
- High strength PU - polyurethane bag assures no leakage
- One-handed, syringe motion deployment provides ease of insertion
- **Diameter:**
10mm
- **Capacity:**
200ml / 400ml

Self-opening, high-strength bags ensure safe specimen capture with easy, one-handed operation.

- **Expertly Engineered:** Crafted with precision and innovation by industry experts.
- **Trusted Performance:** Used by leading surgeons and medical professionals globally.
- **Cutting-Edge Technology:** Stay ahead in the field of surgery with our advanced laparoscopic solutions.

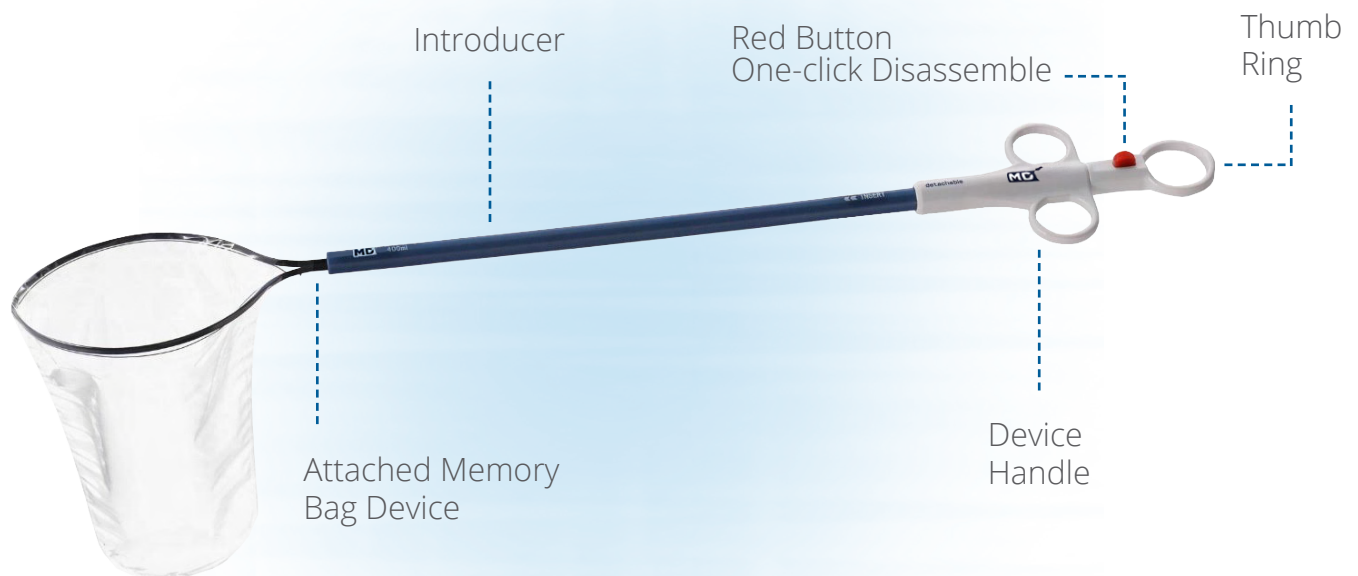

Key Feature:

- **Precision Retrieval:** Our specimen retrieval bag ensures precise and secure retrieval of specimens, minimizing the risk of contamination.
- **Easy Handling:** Designed for ease of use, the laparoscopy specimen retrieval bag simplifies the surgical process, saving valuable time in the operating room.

Disposable

MD Specimen Retrieval System

Crafted for aseptic single-use, this device serves as a receptacle for gathering tissues, organs, and calculi in laparoscopic surgeries. The MD Specimen Retrieval Bag System, featuring a flexible memory wire bag and introducer, is adaptable for use through a 10mm cannula.

Description	Cannula/ Shaft Diameter	Length	Volume	Qty.	Item
Non-pyrogenic, no latex, sterilized attached memory high strength PU bag	10mm	33cm	200ml	10 units/ 1 box	MDSR10-200
Non-pyrogenic, no latex, sterilized attached memory high strength PU bag	10mm	33cm	400ml	10 units/ 1 box	MDSR10-400
